

# ConTEXTt

The background of the page is a dense, overlapping pattern of stylized document icons. Each icon is a dark gray rectangle with a white border and contains several horizontal white lines representing text. The icons are scattered across the entire page, creating a textured, layered effect.

**title** : ConTEXTt User Module  
**subtitle** : Construction plans  
**author** : Peter Münster  
**date** : April 5, 2008

1 `\writestatus{loading}{Typesetting construction plans}`

2 `\unprotect`

We need a lot of space.

3 `\setuplayout [header=0pt, footer=0pt, backspace=2cm, width=middle,  
topspace=1cm, height=middle]`

Doing pagenumbering on our own.

4 `\setuppagenumbering [state=stop]`

`\setupPlan` Setting up some values.

Default setup:

```
\setupPlan[paper=A3,project=,author=,prec=10]
```

Example:

```
\setupPlan[paper=A3,project=My garage,author=Peter Münster,  
prec=Precision factor for figure width]
```

5 `\def\setupPlan[#1]{\getparameters[CP][#1]}`  
`\setupPlan[paper=A4,project=,author=,date=,prec=10]`

Support for more than one language!

6 `\setuplabeltext[fr] [project=Projet,author=Auteur,date=Date,scale=Échelle]`  
`\setuplabeltext[en] [project=Project,author=Author,date=Date,scale=Scale]`  
`\setuplabeltext[de] [project=Projekt,author=Autor,date=Datum,scale=Maßstab]`

`\Plan` Makes a page with a plan and some comments below it.

Example:

```
\Plan[Prefix=file prefix,Scale=scale of figure,mm=width of figure in mm,  
Title=title of plan]
```

If you want to include the file `plan-20000.eps` you have to use `Prefix=plan,mm=20000`.

Sample document:

```
\usemodule[construction-plan]
\mainlanguage[fr] % or better: \usemodule[french]
\starttext
\Plan[Prefix=situ,Scale=2000,mm=351000,Title=Plan de situation]
\Plan[Prefix=masse,Scale=400,mm=66000,Title=Plan de masse]
\Plan[Prefix=nord,Scale=100,mm=20906,Title=Façade nord]
\Plan[Prefix=sud,mm=18900,Title=Façade sud]
\Plan[Prefix=west,mm=23390,Title=Pignon ouest]
\Plan[Prefix=ost,mm=23513,Title=Pignon est]
\Plan[Prefix=rdc,mm=18456,Title=Rez-de-chaussée]
\Plan[Prefix=etage,mm=16695,Title=Étage]
\Plan[Prefix=haus1,Scale=150,mm=30000,Title=Simulation 1]
\Plan[Prefix=haus2,Scale=100,mm=20000,Title=Simulation 2]
\stoptext
```

```

`\NoPlan` Makes a page with some content and some comments below it.

Example:

```
\NoPlan[Title=Some notes]{Here are some notes about the plans.}
```

```
