The logo with the T_EX lion is sketched by Duane Bibby, <https://mirror.ctan.org/lion/files>; the graphic of a header of a page is from the KOMA-Script documentation, file `scrlayer-scrpage.tex`; the page layout image is done by using the package `layout` and the command `\layout` and the red lines and red text added with a graphics program.

Acknowledgements

We would like to thank Markus Kohm, Ulrike Fischer, Martin Sievers, and Herbert Voß for their useful hints and suggestions.

Not naming all the female and male students which with their intrigued questions helped to improve this reference sheet.
