IF YOU HAVE NEWS  
THEN WRITE US !!!!

On Monday the 14-11-88 we called Charles Deenen from Maniax of Noise (ex TMC). Here are the most important facts from the interview:

SMASHER: First we want to know how old you are.

C.D.: I am 18 years old.

S.: When did you buy your computer ??

C.D.: I bought my C-64 about four years ago.

S: And what are you doing in your spare time ?

C.D.: I don't have spare time any more.

S.: How did you find the name TMC ?

C.D.: I don't use it any longer...cause I'm doing nothing illegal any more, but I got it from a dictionary, cause when I was young (12) I was not able to speak any good English.

S.: What are the names of the games you made the musics for ?

C.D.: I made the music for Rambo III ,but then they didn't need it ..... I also made musics for Double Dragon, Soldier of Light, Combat Game, Night Done, Savage, Eliminator, Iron Lord, Alien Force, Bob's Full House, Zamzare (I finished it yet), Trucc, Bamboo (It's the newest game from 'Boys Without Brains'), Outrun Europe... I think I also will do the music for Skateball. About two games I'm not sure whether I shall do the music.

S.: What are your favourite games ?

C.D.: Ehh...let me see... I don't know wheter I have a favourite game. There were games I likes and one of them was RISK, but I don't have any favourite game.

S.: And what are your favourite sounds ?

C.D.: My favourite sound on the C-64 is the Rambo soundtrack from Martin Galway and nothing on the Amiga.

S.: Since when do you make sounds ?

C.D.: Since last year PCW-Show.

S.: With what do you write your musics ??

C.D.: With my own music routine and a PC .

S.: And what do you want to do in the future ? Always make musics and sounds ??

C.D.: What I want to to in the future... making music for a record company .

- ..:Do you want make music with a keyboard or so .. ?
- .D.:No...I think with a studio ! We allready made a song for Virgin Records .
- ..:What was the name of the sound ??
- .D.:I don't know . We only had to make one sound and they wanted to see whether it was good !
- ..:And what are your favourite films ?
- .D.:I think it's INNERSPACE !
- ..:What is it for a film ??
- .D.:It's made by Steven Spielberg ! It's an old one , I think ! And ... eh .. I also like ROCKY films .
- ..:Are you still in touch with some crackers ??
- .D.:NO,because I hate any cracker at the moment.They cost me a lot of money in the last times ! Cause they spread unrealised games and musics .
- ..:Do you want to say something at the end ?
- .D.:People ! Please stop spreading unrealised musics. It cost me a lot of money,cause in the past they realised music (for example ICEAGE and ALLOYRUN) and I didn't get paid for them !
- ..:Is that all ??
- .D.:A last message : if people need musics for the c 64,AMIGA or Spectrum , then we can do them all. I'm not just on 64 and AMIGA,I'm also on ATARI.
- ..:By the way,what did (will do) you with the money you earned ?
- .D.:In the past I spend it for a car.It's an AUDI 80 and now... I will buy computers !
- ..:How much do you earn per music (ca.) ??
- .D.:I'm sold per music .It's around 300 to 1200 pounds ...so it's between 900 and 3600 DM.
- ..:Well,that was it,I think .
- .D.:Oh wait . Too many people think that Maniax of Noise are a group ,but at this time it is a registrated company !! That's all .
- ..:Yes ! Fine, we will see ya .Bye,Bye !

Message:Some stupid guys like ZENOBITS suppose they are cool when they try to destroy other person's property. But with this they make a fool of themselves and this is another prove for their folly !!

The GVC SUPER MODEM can be used to automatically call and communicate with other computers (it can be used for importing American games). It can connect to PBX or central switch telephone system, either Touch-tone or pulse dialing can be used. Furthermore both dialing ways can be combined with a command. For example to access PBX line by Touch-tone dialing to get second dial tone then use Pulse dialing to dial outside number. The system consists of SUPER MODEM unit, a modular telephone cable and a power pack.

User can install this SUPER MODEM 300 (from GVC) system by plugging in the telephone cable and power pack and connecting user system's RS-232C interface cable to the RS-232C connector which is installed on the back panel of the SUPER MODEM. (This cable is not included !!).

LED status indicators on the front panel provide a visual check of SUPER MODEM operating status.

When we tried to connect a mailbox in the USA, we had some problems caused by eight dip switchers. There was no list that showed us how it was right. Some other negative points are that you have to buy special cable to connect the modem with the computer, the high price and english user manual !

In the end we can say that this is a very good modem with 300 baud. The using is very easy and comfortable. Let's see what the other modem next month can make it will be a 1200 baud modem for C64 and other comp.)

After a long time Meantronix (MAX) got a new member called Powerstack. Meantronix will publish their MAX-News or disc this days (first time in English).

Now X-ample dit it. They are up to now only on the Amiga. All the members on the little old C-64 changed to TCM (The Cracking Mission).

It seems that Shining 8(S8) has much trouble with BROS, cause they spread on the GP Party Ultima V. BROS wanted to sell it to some people. It seems that they get no more originals !

As we have heard from some Amiga contacts , POWERSTATION and 16Bit were caught by the police. The bad thing that they gave many adresses to the police , cause they don't want to pay much money.

ATTENTION!! S8 want to control the sowitzware sector. They want to kick out some groups of the scene !

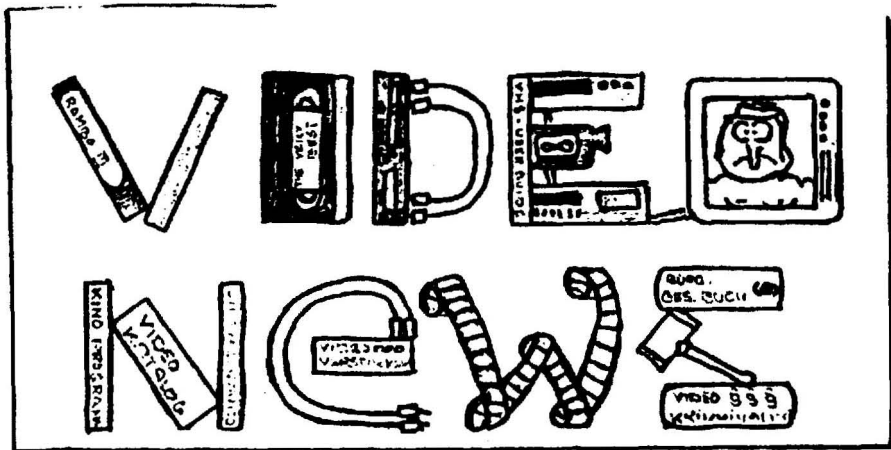

ALC amd GP make a COPY-PARTY in Regensburg/Bayern from the 27.12 to the 31.12.88 for Amiga and C-64.

# POST

After all of us have recognised that the trick with the esa film does not work any longer, here are some other tricks for cheating the post.

- 1.) If the stamps are only stamped on the edge just use them again.
- 2.) Put the stamp on the letter and wipe over it with some soap or hairlack.
- 3.) Put the used stamp in warm water. In the most cases the stamp can be cleaned up.
- 4.) For the German readers: buy your stamps with five pence pieces!
- 5.) You can do the same with hard wax (buy it at a petrol station) in point 2.

# The PCW Review

Yep, the PCW was the megashow of this year, I think. Not so many wares to look at, but anyway it was great to look at all these great software companies and all the famous hackers.

We started our megatrip on Friday. I arrived at TEKAY'S place Friday afternoon. So TEKAY and me just waited for Mr Cursor and Jeff Smart/SCG. So at 15 o'clock IRATA of Red Sector, Tokay, Jeff Smart and Mr Cursor and a cool mate who decided to be our driver walked to the show of the year. We arrived really late at the french harbour Calais, so we got the last ship to cross over to England and arrived London at 12 o'clock. We tried to call a few dudes, like IKARI but we couldn't reach any of them. So we decided to go to the place where the show started the next morning. The other guys walked around to find a place to sleep that night and finally we found a breakfast hotel. We all rent a room except that guy called IRATA who wanted to stay in the car. Next morning I went to the show really early, so I was one of the first (He, he). I met ANDY a cool guy from New Bencor there and he was suprised to see a guy of the legendary immortal Red Sector in England. We walked around for a few times and an hour later Jeff, Tekay and Mr Cursor also arrived at the show. I just went to the compunet stand to show the lamers around that Red Sector launched in England. The guys were really impressed by our NEW AMIGA DEMO. I met SCG, MCS, Transom, Jungle command, Magnificent Force and most 4 guys.

Anyway I met a few cool dudes from my friend The Hobbit here. The first day was a little bit boring, only a little... On the second day I went to the show and met some mega guys like 1001-Crew, Ackerlight, Fred, all cool guys from Ikari, the crew of ANTI commies called FAIRLIGHT, yeah and finally Scoop, BWB and our best and coolest friends Teeside Cracking Service. Does the old one of you remember that cool team?

Some hot Hacking was going on, Thrust program et there Demo on the Party one it got the best. Also on the C-64 was some Hacking going on. Frontline 1842 had the 1th place with there Demo, the also made with Shining 8 a Cooperation Demo. The Shining 8 Demos were nice, 711 and G\*P even, too. In one word the Party-Demos where Pretty cool. Now to the Software. There where more Demos, than Games. On the C-64 did not the game showed up how all been waiting for Last Ninja II ...

3 C-64 and 1 really Amiga Crew (Thrust) made this Party, but there was more going on the Amiga. As you can see the C-64 goes easy down. Amiga is now the Future. It was very hot and sure there had to be some changes like keeping out the lamers, but in one way; "cc Party".

I'M SURE THERE'S A PERFECTLY SIMPLE EXPLANATION. LOOK... THESE ARE REAL ALIENS! SHOT EVERY LAST ONE MESELF!

MEANWHILE... NEMESIS HEADS ACROSS MAKEKING ON HIS WAY TO BRITANNIA — UNWARE THAT HIS WIFE, CHIRA, HAS BEEN MURDERED IN THE ORDERS OF TORQUEMADA...

SO IT'S BEGUN! I MUST MAKE THE ION DUKE SEE SENSE— BEFORE THE TERMINATORS MASSACRE MORE INNOCENT CREATURES.

I'M ALSO QUITE CONCERNED I HAVEN'T HEARD FROM GROBSENDONK...
